

WILLIAM HENDRIX

Industrial Engineering Student

(469) 318-9680

gradyhendrix2@gmail.com

SUMMARY

Industrial engineering student seeking a summer internship in oil and gas or field-based operations. Motivated by early responsibility, practical problem-solving, and building an adaptable skill set. Brings a business-minded engineering perspective, an interest in management and leadership, and an understanding of how engineering decisions affect efficiency and profitability. Known for dependability, asking the right questions, and leadership developed as an Eagle Scout and current Kappa Sigma treasurer.

EDUCATION

University of Arkansas

2026 - Present

Pursuing a bachelor's degree in Industrial Engineering

Texas A&M University- Corpus Christi

2024 - 2026 | GPA: 4.0

Coursework toward a bachelor's degree in Industrial Engineering

Richardson High School

2020 - 2024 | GPA: 96

Graduated from Science and Art magnet programs with honors

SKILLS

Tools and technical experience

Microsoft Office and Google Workspace; R and GitHub for coding, data analysis, and engineering coursework; Bluebeam for reviewing and interpreting construction drawings.

Professional strengths

Problem-solving, leadership, and clear communication. Reliable, adaptable, and quick to learn in technical environments; effective in teams and independent work. Asks questions to understand processes and improve results.

HONORS AND AWARDS

- Eagle Scout certificate
- National Honor Society
- Presidential Service Award - Silver
- National High School Honor Society
- Academic All-State Athlete Award

PROFESSIONAL EXPERIENCE

Project Management Internship

CONSTRUCTION · ARCHER WESTERN | MAY - AUG. 2026

- Assisted the project manager with day-to-day responsibilities on a \$320 million water treatment project in South Mesquite.
- Learned to prepare submittals and requests for information (RFIs), staying ahead of project needs while accounting for materials already available.
- Identified upcoming project needs and communicated with manufacturers to obtain submittals in a timely manner.
- Attended owner meetings, gaining a broader view of the project while taking thorough meeting minutes.

Field Engineering Internship

ARCHER WESTERN | MAY - AUG. 2025

- Assisted field engineers with daily operations, inspections, and coordination of on-site activities.
- Supported field operations by reviewing construction drawings and documentation using Bluebeam.
- Observed and participated in field execution to better understand construction processes, sequencing, and constraints.
- Communicated with superintendents, subcontractors, and engineers to support project progress and issue resolution.
- Maintained accurate documentation, reports, and logs to support field and project management teams.

Construction Operations Assistant

MAMMOTH CABINETRY

MAY - AUG. 2021 & MAY - AUG. 2022

- Assisted the owner with day-to-day operations, gaining experience that helped me start and manage my own company.
- Conducted regular site visits to observe construction operations and understand project execution.
- Communicated with clients and supported project coordination in a small, owner-led operation.
- Developed an understanding of job costs, profitability, and how field decisions affect business outcomes.
- Demonstrated reliability by handling assigned tasks independently.
